

StealthLock
Keyless Invisible Cabinet Locking System

Now Stocking

Concealed locking for kitchen cabinets, liquor cabinets, entertainment units, healthcare cabinetry, lockers, office furniture, retail display cabinets, closet cabinets and storage.

Transmitter Pad may be stored anywhere, leaving no trace of visible hardware or signs of being secured. Allows multiple (individually accessible) wood cabinet doors or drawers to be locked from a single transmitter pad within a 15 foot range.

Easy to install - takes fewer than 10 minutes. Replaces existing cabinet locks.

Lockers

Office

Commercial/Hospitals

Features and Functions

- Transmitter pad operates within a 15 ft. range
- One transmitter pad can activate an unlimited number of receiver latches
- Separate user and supervisor codes (four to eight digits) to operate the lock(s)
- Receiver latch is easily programmed by user through the transmitter pad. Mounts within 1/2" drawer suspension clearance.
- Uses (4) AAA batteries (not included) for the receiver latch and a coin battery (included) for the transmitter pad. Low battery indicator on transmitter pad and receiver latch.
- Interior use only - recommended temp range of 50° to 120° F.
