X-Series Bracket System for Adjustable Roll-Outs

The X-Series Brackets bring high quality, simple, tool-free adjustability to roll-out shelving systems. Installation is quick and easy.

How It Works: With a simple slide/swing motion the slides disengage from the pilasters and move up or down to organize tall and short items.

ADJUSTABILITY: Tool-free adjustability allows users to quickly and easily change their shelving heights to adapt to their evolving needs.

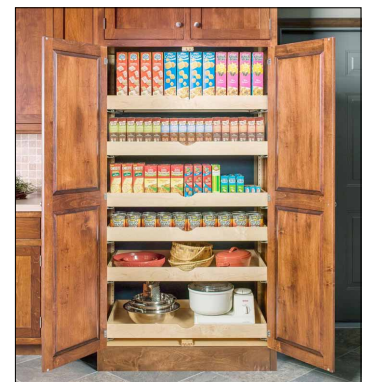

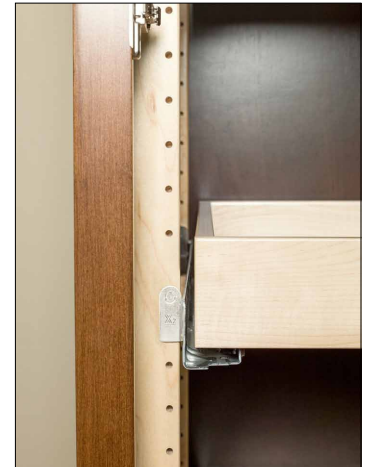

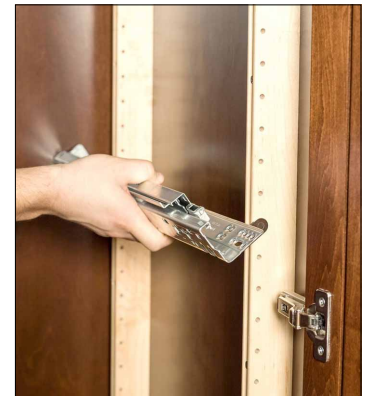

DURABILITY: Solid, Appalachian Maple pilasters and high strength, metal brackets have been tested to 400,000+ open/close cycles with a 100 lb. load without any impact on function.

MARKETABILITY: The X-Series Bracket System meets the needs of today's consumer by providing convenience (adjustability) and quality (durability) at a great value.

Sets come with brackets and are available with pilaster widths of 1-1/4" or 2-1/2".

XB150 - Pilaster height of 20-7/8" for standard height base cabinets.

XB550 - Pilaster height of 58-5/8" for pantry cabinets.

Code	Kit Descriptions	Pilaster Width	List
XB150N	8 Brackets, (4) 20-7/8" Pilasters	1-1/4"	\$ 92/st
XB150W	8 Brackets, (4) 20-7/8" Pilasters	2-1/2"	125
XB550N	20 Brackets, (4) 58-5/8" Pilasters	1-1/4"	229
XB550W	20 Brackets, (4) 58-5/8" Pilasters	2-1/2"	284
XB1	Brackets only (1 set for 1 rollout)	-	25/bx
XB20	Brackets only (20 sets for 20 rollouts) (full box only)	-	415
