

# PROFESSIONAL CABINET SAW / PCS™

PCS31230-TGP236

## BEST-IN-CLASS PERFORMANCE.

The Professional Cabinet Saw is our best selling cabinet saw, offering unmatched fit and finish and best-in class cutting performance.

### Secure & Accurate

36" and 52" T-Glide Fence options are made of heavy-gauge steel for sure lock-down and reliably square cutting. A 30" Premium T-Style Fence is also available.

### 99% Dust Collection

99% dust collection is delivered above the table with the available Dust Collection Blade Guard (TSG-DC, sold separately for 1.75hp models), and below the table with advanced shrouding around the blade.

### Built To Last

A heavy-weight trunnion unlike any on the market, with the thickest arbors of any 10" saws. True vertical trunnion travel, with gas-piston assist for ease of operation. Durable, open gearing for minimal dust compaction and easy operation.

### Mobility Options

Two compatible bases, the Professional Integrated Mobile Base and the Industrial Mobile Base w/PCS Conversion Kit, make it quick and easy to move your saw around your shop.
